Statement Strategy Time!

New York City, also known as “the city that never sleeps” or the “Big Apple” is sometimes called the greatest city in the world. Before the arrival of Europeans on North Atlantic shores, the area was home to the Algonquian tribes who lived off the land’s rich bounty and hunted and fished in the local rivers. The Lenape Native Americans called the land Manhattan. Present day NYC is made up of five Boroughs: Manhattan, Staten Island, Queens, Brooklyn and the Bronx. With a population of more than 8 million residents, it is the most populous city in North America.

Statement: The Cherokee Tribe called the land Manhattan.

Let's Be CHAMPS!

C– Conversation: Students will listen carefully as the teacher speaks and will not get off topic!

H– Help: Students will help their peers think and read like a historian.

A– Activity: Students will think and read like a historian based on documents given to them and answer questions.

M– Movement: Students will be seated at their desks during the lesson.

P– Participation: Students will work together to answer questions and make sure we stay on track.

S– Success: Students will use their understanding of sourcing, contextualization, close-reading, close-reading perspective and corroborating to think and read like a historian.

We are going to investigate documents by...

- **Sourcing** (before reading!)
 - Ex: Who made this source? Where did it come from? What might be the motivation and personal interest?
- **Context** (before reading!)
 - Ex: How was the world that made this source different than our own?
- **Close-reading Inferential and Academic** (as you read/after you read)
 - Ex: What does the document say? Is it bias? What is the tone? What do the specific words refer to?
- **Close Reading and Perspective**
 - Ex: What is the perspective of the author or what would the author do? What is the possible effect on the author?
- **Corroborating** (after you read)
 - Ex: What do other sources say about this document? Do they agree or disagree with what the document says?

Document 1

“My sister and I grew up quickly, never learning what it meant to relax but rather to always keep moving. It did, however, offer certain benefits. We were exposed to vastly different ethnic customs and languages. We tasted new cuisines each week, and Broadway shows and museums were routine family outings.”

How did the video make you feel?

What did you learn from the video?

Do you think homeless people are happy?

Turn and talk with your partner!

Let's Be CHAMPS!

Conversation: Students will conversate with one another during the class discussion and while working in groups

Help: Students will help make a difference.

Activity: Students will convey a movement on ways to help homeless

Movement: Students will be seated during today's lessons.

Participation: Students will participate in a Kahoot review.

Success: Students will construct solutions to help homeless people in New York City.

Rise of homelessness in New York City

1. In recent years, homelessness in NYC has reached the highest level since the great depression of the 1930's.
2. Over the course of the city 2017 year, 129,803 different homeless men, women, and children slept in the NYC municipal shelter system. This includes over 45,000 different homeless New York City children.
3. Each night thousands of unsheltered homeless people sleep in NYC streets, in the subway system, and other public places.

Homeless children in New York City

1. There were 100,000 homeless students in New York City public schools during the 2015-16 school year, a number equal to the population of Albany.
2. 1 in 7 New York City elementary students will be homeless if the rate continues to grow.
3. It is growing because of the city's housing crisis, which has resulted in a growing number of families in city shelters.

Brainstorm time!

Homelessness is rising in New York City and people are not very happy.

What are some ways we can help the homeless population in New York City?

Time to make a difference!

Each group will be given a task that requires them to come up with ways to help the homeless population in New York City.
